

# Muhammad Zaid Saleem

## OBJECTIVE STATEMENT:

As a motivated Web and App Developer, currently educating myself to a degree level in Computer Science. I also have done Web and App Development courses at codewithmosh.com which helped me a lot to complete my real world projects. In my recent tasks I have learned to play around with complex and multiple task and this is done because of my different strategies of problem solving. Now, I am expecting as a Web and App Developer job to secure a challenging position in a reputational company and utilize my skills.

## EXPERIENCE:

- Fresh.
- Created some projects on my own using React JS, JavaScript, NodeJS like Robo Friends and Face Detector Application.
